Risk	Evaluation	Likelihood	Impact level	Responsibility	Control Measures
Understanding Methods required to complete tasks	Not being able to complete the tasks on time	Medium	High	Developer	Continue to go over notes and videos since week 1, as well as this I should learn out of hours using resources such as Youtube and Codecademy
Coding issues	Final code to have issues and not work properly	Medium	High	Developer	I will go over my code carefully and take my time to ensure I follow necessary steps to avoid mistakes. Once completed I will run testing
Connection / Internet Outage	Inability to upload any work, or view any resources for guidance	Low	Medium	Service provider	Ensure all connections in my router are connected properly, and nobody is messing around with the wiring in my living room where the router is located, also have back ups (hotspot) on standby
Motivation	Not doing work efficiently and to the best of my ability	Low	High	Developer	I must remain focused on my end goal of becoming a developer to remain motivated. I will need to work hard and take breaks to ensure I do not go into overdrive.
Project amendments	If there are new things I need to pick up or change along the way	Low	Low	Provider	I will need to keep on top of any changes that may be made, be it little or large I will have to stay attentive and on top of all working scenarios
